

# Cone Trees

## Make your own forest.

Make paper cones, in different sizes & with different papers (colored/patterned), then paint, draw or decorate with glitter pens "jewels", beads or anything you can think of! Rip apart some cotton balls to make some easy snow to decorate with, or have the trees sit on.

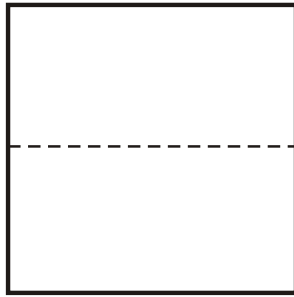

Start by make a cone. You can make a cone by cutting a circle (you can use lids to help with making it as round as you can). Cut out a section (see below) then overlap one edge to the other and tape or glue together.

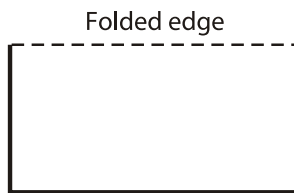

# Folding & cutting a Snowflake

Every snowflake is different!  
Try them in all sorts of sizes and with different papers

**1.**  
You need a SQUARE  
piece of paper

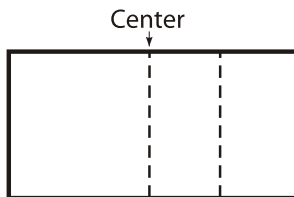

**2.**  
Fold it in half

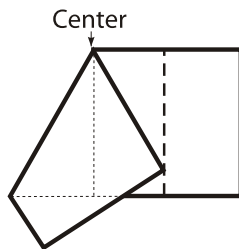

**3.**  
Fold in half again to make  
a square, then unfold to  
the rectangle again.

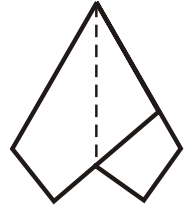

**4.**  
Fold the right edge in  
to the center fold &  
unfold again.

**5.**  
Fold the left side corner,  
from the top center to  
the right so that it just  
touches the fold farthest  
to the right.

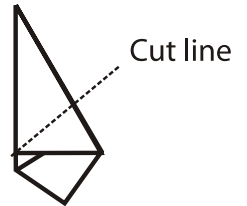

**6.**  
Fold the right side over to  
the left so that the  
folded edges meet.

**7.**  
Fold in half from the point  
to the edge.

**8.**  
Cut edge end (opposite  
the point) at an angle.  
Try different angles on  
different snowflakes.

**9.**  
Cut out various nips & shapes  
in the edges.

**10.**  
Unfold and see what  
you've created!

# Snowman Finger Puppet

Cut 2 bodies

Glue around the edges EXCEPT the bottom and stick together

OR cut a strip, big and long enough, to fit your finger(s) fold edges in and glue to backside

glue
